

# ThermoLite™ WARRANTY EXTENSION

**WE'RE SO CONFIDENT IN OUR ThermoLite SOLAR PRODUCTS, WE'RE EXTENDING THE WARRANTY TO 5 YEARS!**

Due to our confidence in the quality of ThermoLite products, we are extending the warranty to 5 years (from the current 4 years). This industry-leading warranty reflects our belief that ThermoLite is the premier solar product in the transport market.

With the 5 year warranty, ThermoLite has a winning combination with the best warranty in the industry paired with the best product design and the best dealer network for sales and installation.

## WHAT'S CHANGING

*Beginning immediately and retroactively, all ThermoLite solar products will be backed by a 5-year warranty. This new warranty includes all components within the 26W, 36W and 100W product families.*

## WHAT THIS MEANS FOR CUSTOMERS

*Now customers can be assured that their ThermoLite solar panels will be covered throughout their trade cycle, regardless of failure mode. This best-in-class warranty is paired with comprehensive coverage that is not dependent on output or usage conditions like competitive products. When combined with the support of the extensive Thermo King dealer network, no other solar product gives you the backing and peace-of-mind of ThermoLite. This new warranty is retroactive and applies to all previous ThermoLite sales.*

## THE MOST DURABLE SOLAR CHARGING SYSTEMS

*As the most durable and advanced solar charging system available, ThermoLite panels are designed to withstand anything and everything the environment and users can throw at them. ThermoLite panels undergo extensive testing to withstand the following and more:*

- Hail
- Tree scrapes
- Snow scrapers
- Pressure washing
- Chemical cleaning
- Jump starts
- Reverse polarity
- Electrical transients
